

“The shortest path to improved marketing effectiveness, improved lead volume, increased conversion rate and low attrition is via marketing and sales data management.” - Glenn Coward / Founder CS

Better Projects - Better Records

Put it Forward® is the solution that SAP® users look to for help establishing effective Work Management through Workfront®. This lets a user keep both marketing, sales, operations, finance and the PMO in the conversation and sharpen operations across the enterprise.

Common Scenarios:

- Marketing campaign control in Workfront® with campaign execution from SAP Hybris®
- Sales and performance attribution across SAP CRM®
- Finance and project governance with reconciliation through to SAP ECC®
- Enhanced operational forecasting models and reporting with deeper views of your SAP Bobj universe's.
- Data analysis to determine effective sales behaviors and close rates driven by marketing events
- Create exposure across the customer life-cycle not just funnel development
- Advanced reporting through SAP Hana®

SAP® and Workfront® Simplified

Put it Forward® enables the rapid connection and collaboration of business systems through on demand technology.

Designed for the business analyst, evangelist or operations specialist, Put it Forward's® “No Code” graphical experience accelerates and simplifies the ability to work with data.

Extend beyond connecting into operations governance, data quality and customer life cycle management. All within the same application.

Pre-Built Connections from Put it Forward® enable Workfront users to rapidly connect to SAP® systems such as SAP ECC®, SAP CRM®, SAP B1®, SAP R/3®, SAP Hana®, SAP Business Objects®, SAP C4C®, SAP Hybris® and SAP S/4® and more. Helping improve operations, increase data quality and minimize IT costs while enabling their goal of having a deeper more meaningful customer experience.
