

“The shortest path to improved marketing effectiveness, improved lead volume, increased conversion rate and low attrition is via marketing and sales data management.” - Glenn Coward / Founder CS

Better Analytics - Better Campaigns

Put it Forward® is the solution that Marketo® users look to for help with effective analytics integration through Adobe Analytics®. This lets a marketer develop deeper understanding of their customers and deliver comprehensive messaging.

Common Scenarios:

- Cross channel marketing with Adobe Analytics® with multiple marketing automation systems including Marketo®
- Deeper customer experience management across their entire life cycle
- Increase content velocity and utilization by linking what works with the right audience
- Increase conversion rates with testing
- Cross channel attribution
- Get a complete 360 degree view of the customer and how they interact with you
- Find more and better customers

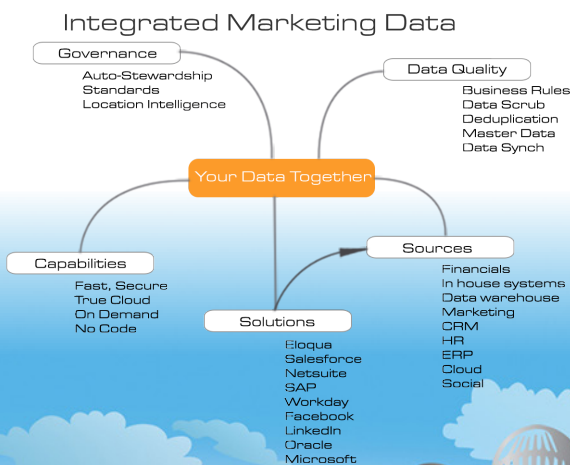

Adobe Analytics® and Marketo® Integration

Put it Forward® enables the rapid connection and collaboration of business systems through on demand technology.

Designed for the marketing analyst, evangelist or operations specialist, Put it Forward's® “No Code” graphical experience accelerates and simplifies the ability to work with data.

Extend beyond connecting into operations governance, data quality and customer life cycle management. All within the same application.

Pre-Built Connections from Put it Forward® enable Marketo® users to rapidly connect to other systems such as Cvent®, Oracle®, Salesforce®, SAP®, Microsoft Dynamics®, Netsuite® and many more. Helping improve operations, increase data quality and minimize IT costs while enabling their goal of having a deeper more meaningful customer experience.
