# workfront + NETSUITE by Put It Forward®

*"Put It Forward gives me the ability to do data magic for every department and customer."*
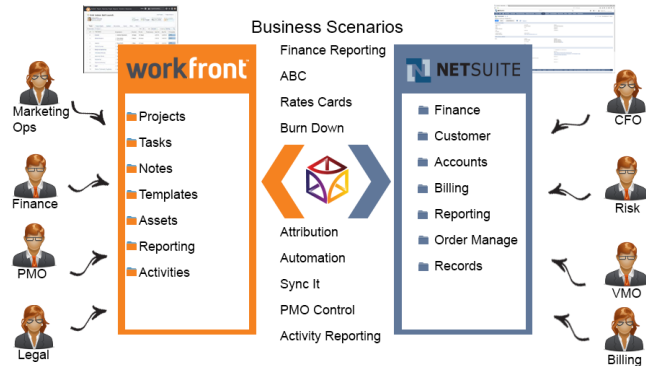

Udo Waibel - CTO Sitecore

## Better Projects - Better Results

Put it Forward® is the solution that Workfront® users look for help developing effective enterprise life cycle management through Oracle Netsuite®. This lets a user keep the operational, planning and finance teams in the conversation and sharpen customer management.

Common Scenarios:
• Keep finance and operations synchronized between Workfront® and Netsuite®
• Customer engagement with Netsuite® cases integrated into Workfront®
• Project and activity based billing, time allocation and reporting
• 360 degree spend and execution attribution across projects and activities
• Contract burn down, control and visibility to by the minute level of execution
• Create exposure across the customer life-cycle not just funnel development
• Automate manual process for time, expense and activity reporting

## Workfront® and Netsuite® Simplified

Put it Forward® enables the rapid connection and collaboration of business systems through on demand technology.

Designed for the analyst, evangelist or operations specialist, Put it Forward's® "No Code" graphical experience accelerates and simplifies the ability to work with data.

Extend beyond connecting into operations governance, data quality and customer life cycle management. All within the same application.

Pre-Built Connections from Put it Forward® enable Workfront® users to rapidly connect to other systems such as Oracle®, Salesforce®, SAP®, Microsoft Dynamics®, Netsuite® and many more. Helping improve operations, increase data quality and minimize IT costs while enabling their goal of having a deeper more meaningful customer experience.
